The Cool Spring Downtown District has seen impressive growth over the last few years to include an increase in the number of women-owned businesses. In honor of the start of Women's History Month, the organization charged with managing the Arts and Entertainment District and the Municipal Service District is pleased to release a list of the district's businesses led by women.

Molly Arnold, Chair to the Board and long-standing business owner, said "becoming a business owner allowed me to share my passion for a revitalized downtown with a multitude of others and build a downtown community that welcomes women entrepreneurs. I invite you to give your business dream a try alongside us. See you Downtown."
